

Lulu Girotti

Winchester High School

Artist statement: The theme for my photos is "pandemic in the city". My goal was to highlight the pandemic in its effect on the city. I tried to show that even though these times maybe tough there is still a lot of beauty in the world. This beauty has been showing up more with thank you's to essential workers and masks on statues. By shining light on the beauty and art created during the pandemic I hope to show that there is still hope.
